SUMMER INTERNSHIP / WORK EXPERIENCE	
Intern, Tresor Systems Pvt Ltd Tresor Systems Private Limited, is Imagine Apple Premium Reseller in Delhi. During the internship, i worked on different projects and demonstrated good skills majorly in PHP and Python languages, and prepared completed a project which is live and working on the company server. I was diligent and enthusiastic with the zeal to do his best on this project. He also assisted in the preparation of technical documentation and handout of the project. I demonstrated good coding skills. He has excellent written and verbal communication skills and is well organized and handles the assigned work independently and is able to effectively undertake multi-task and also ensures that the assignments be completed in a professional and timely manner.	Aug 2023 - Sep 2023

PROJECTS	
Blog Application - MERN Stack Web Development I'm currently working on an exciting project, building a blog website using the MERN (MongoDB, Express, React, Node.js) stack. This full-stack development approach allows for robust, dynamic, and user-friendly web applications. With MongoDB for the database, Express for the server, React for the frontend, and Node.js for server-side scripting, I'm creating a responsive and interactive platform to share content and engage with users. The MERN stack's flexibility and scalability make it a fantastic choice for developing a feature-rich blog site. Project Link-https://github.com/mank25/fullstack-blog	Sep 2023 - Present
Restaurant Website (Frontend only) - Html,css,js I recently completed the development of a restaurant website's frontend, and it's been an exciting journey. Using a combination of HTML, CSS, and JavaScript, I crafted an engaging and visually appealing user interface. The website showcases the restaurant's menu, location, and contact information, creating a seamless and attractive experience for potential customers. The design, layout, and interactivity elements were carefully crafted to enhance the user's browsing experience, and I'm proud of the end result. Project Link-https://github.com/mank25/Webdev-contest/tree/main/Mayank%20Sharma (Made the website for a Web Development contest)	Apr 2023 - May 2023
HRM(Human Resource Management) - Php,MySQL During my internship at Tresor Company, I had the opportunity to create a Human Resource Management (HRM) project. Using a tech stack comprising HTML, CSS, JavaScript, PHP, and MySQL, I developed a comprehensive HRM system. The project is live on Tresor's server, facilitating efficient HR operations such as employee data management, attendance tracking, and payroll processing. This achievement demonstrates my practical skills in web development and contributes significantly to the company's HR processes. Project link-https://www.myimaginestore.com/tresor/hrm	Mar 2023 - Oct 2023
Database Management System - MySql I successfully developed a mobile showroom management system using Python and SQL. This system efficiently tracks inventory, sales, and customer data, streamlining operations. Python handles the application's logic, while SQL ensures secure and organized data storage. The project simplifies showroom management and enhances productivity.(It runs on terminal only) Project Link-https://github.com/mank25/mobile-showroom-management-system	Feb 2023 - Feb 2023

CERTIFICATIONS		
CERTIFICATION	CERTIFYING AUTHORITY	DESCRIPTION

CERTIFICATIONS		
CERTIFICATION	CERTIFYING AUTHORITY	DESCRIPTION
Mayank Sharma	S.R.M university	I recently received a certificate for participating in a poster-making competition. This recognition highlights my creative and artistic skills, showcasing my ability to convey ideas visually. The competition allowed me to express my thoughts and messages through art, and this certificate serves as a reminder of my artistic achievements and the appreciation of my work in the competition.
Mayank Sharma	MSIT University	I am proud to have received a certificate for participating in the "Hackathon Code4Cause" organized by MSIT College on October 5th and 6th of this year. This certificate acknowledges my dedication and skills in coding and problem-solving during the event. It serves as a testament to my commitment to tackling real-world challenges through innovative solutions and collaboration with fellow participants. The experience has been valuable, and the certificate is a token of that memorable journey.
